

QUESTIONS FOR BUILDING YOUR CHARACTER

Answer these as your character.

1. Who am I? (what is your character's name)
2. Where am I? (where do you think this scene is happening)
3. When is it? (what time/day/month/year is it?)
4. Where have I just come from? (what was happening right before this scene started?)
5. What do I want? (do you want something material from the other character? do you want something more invisible, like respect? you can choose!)
6. Why do I want it? (choose a reason as to why you want that something - it can be anything you want it to be!)
7. How will I get what I want by doing what? (what is your character doing in the scene to get what they want, are they arguing, begging, talking it over?)
8. What must I overcome? (is there an obstacle stopping you from getting what you want? For example, if you want an apple but the tree is simply too tall to get it, or you want your friend to talk/message to you but they're on a time out.)
